

Rank My Maths

The Tuition Centre

Aims

Mathematics is a core subject which develops students' aptitude in problem solving, logical thought process and analysis as they build up their knowledge base in number, shape space and measure, algebra, probability and statistics, ratio and proportion. We aim to help all our students achieve success from whatever their starting point and whatever the goals.

Acceleration: With our fully qualified teachers, we will prepare students to achieve a top grade, providing excellent preparation for a progression to A Level Maths is needed.

Support: It is very common for students to struggle in class in maths. Particular when the class has over 20 students of mixed ability. We aim to help students become confident learners, believing in themselves and hitting their weakness head on.

Structure

- 1 hour per week
- Online 1 to 1 lesson
- Homework set weekly

No lessons in school holidays

Resources

- Lessons are on the Rank My Maths online teaching portal.
- This is an interactive virtual classroom where students can write freely on an online whiteboard.
- Students are given user IDs for an online portal called 10Ticks, where homework will be set. The account gives them access to thousands of worksheets and hundreds of explanation videos.

Assessment

Assessing students is integral to helping them make progress. As such, testing forms a prominent role in the learning cycle at Rank My Maths.

Fees

£35 per hour

£50 for 1 hour 30 minutes

Payable weekly

Reporting

Student's progress can be monitored and tracked via the 10 ticks portal at any time.

Students will also receive a bi termly report.
