

# Rank My Maths

## The Tuition Centre

### Aims

Our intent is to empower students to become confident problem solvers, who are not afraid to make mistakes, who relish a challenge and who strive to better their personal performance. We ultimately want our students to enjoy the beauty of mathematics. We do this inclusively with no discrimination.

We aim to deliver the maths KS2 curriculum at an accelerated pace, yet in deeper depth. Primarily our focus is on preparing our students to sit the 11Plus Exam at the start of Year 6. However, the programme of study in turn provides invaluable preparation for confidence in the KS2 exam in the summer of Year 6. This then leads to a firm foundation for success in GCSE mathematics in any type of school setting.

### Structure

Year 4	Year 5
<ul style="list-style-type: none"><li>• 1 hour per week</li><li>• Online group of 6 students maximum</li><li>• Homework set weekly submitted online</li><li>• Weekly mini tests.</li><li>• No lessons in school holidays</li></ul>	<ul style="list-style-type: none"><li>• 1 hour per week</li><li>• Online group of 6 students maximum</li><li>• Homework set weekly submitted online</li><li>• Monthly practice tests</li><li>• No lessons in school holidays, apart from the Summer Holiday, where weekly lessons continue.</li></ul>

### Resources

- Lessons are on the Rank My Maths online teaching portal.
- This is an interactive virtual classroom where students can write freely on an online whiteboard.
- Students are given user IDs for an online portal called 10Ticks, where homework will be set. The account gives them access to thousands of worksheets and hundreds of explanation videos.

## **Assessment**

Assessing students is integral to helping them make progress. As such, testing forms a prominent role in the learning cycle at Rank My Maths. We provide students not only with a score, but detailed feedback and actions to avoid repeated errors.

## **Fees**

Fees are set at £60 per calendar , invariant of the number of weeks in the month. For Year 4 students, there is no August fee.

Fees are payable at the start of the month, with the exception of January 2021 being due in arrears at the end of the month.

For mid-month starters, the first month fees will be re-calculated accordingly.

## **Reporting**

Student's progress can be monitored and tracked via the 10 ticks portal at any time. In addition, students will receive monthly written feedback with the results from the monthly tests.
